Users can choose from predefined report periods – today, yesterday, last week, etc. – or select an exact date range from the calendar.

The data table gives detailed information organized in the following columns:

- Carrier ID – the ID of the provider
- Carrier – the name of the provider
- Cost – the total cost to the provider
- Revenue – the revenue related to this cost (and not the total revenue for the period)
- Gross Margin – the difference between revenue and cost
- Duration – duration in minutes to this provider

It is possible also to view the information only for specific carriers.

All columns can be sorted as needed and the generated reports can be downloaded in .csv format or emailed.

Please note that all results in this report are displayed in base currency.
